DETAILED ACTION

Response to Amendment

1. The Examiner acknowledges Applicant's submission on 3/13/06 including amendments to claims 1, 3, 9, 12, 15, 17, 23, 28, 30 and 33. Based on these amendments, claims 1-36 contain allowable subject matter.

Response to Arguments

2. Applicant's arguments, with respect to U. S. Patent No. 6, 393, 443 B1 (Rubin et al.), herein referred to as Rubin, not disclosing invalidating a region with furthering updating of the invalidated region have been fully considered and are persuasive. The rejection of claims 1-36 has been withdrawn. Rubin teaches conducting a check to determine if a distinct region contains text but this testing does not clearly teach how a region can be invalidated.

Allowable Subject Matter

3. Claims 1-13, 15-31 and 33-36 are allowed.

4. The following is an examiner's statement of reasons for allowance: With respect to independent claims 1, 15, 28 and 33, Rubin which has been previously relied upon to teach the invalidating process does not fully teach the specific elements claimed. Rubin discloses a check that is conducted to determine if text is displayed in a distinct region but there are no teachings of a means for invalidating a region and further re-rendering of text based on this invalidation step. Prior art combinations along with Rubin would not have made the invalidation process with the re-rendering of text an obvious teaching. The present claims with the invalidating process, re-rendering of text along

with the other elements claimed teach a specific process through which data related to a text displayed is delivered.

Since claims 2-14, 16-27, 29-32 and 34-36 depend on claims 1, 15, 28 and 33 and include all of the limitations of these claims, claims 2-14, 16-27, 29-32 and 34-36 are considered allowable for the reasons in which claims 1, 15, 28 and 33 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
